AMENDMENT

Sir:

In response to the Office Action of April 13, 2004, please amend the above-identified patent application as follows:

portion wherein hardness of a peripheral region of an inner peripheral corner of the inner ring is capable of plastically absorbing a load at the time of caulking.

Therefore, Kashiwagi et al. cannot be modified in view of Bertetti to render the embodiment of the invention set forth in claim 7 unpatentable.

In view of the changes to claim 7 and the arguments presented above, it is respectfully submitted that the Examiner's rejections of claim 7 have been overcome and should be removed and that the present application is now in condition for allowance.

New Claims

Claims 10-18 are added. Claims 10-17 recite additional features of the bearing device of claim 7. Claim 18 is an independent claim which includes the subject matter of claims 7 and 9 as previously set forth. In view of the Examiner's indication of allowability in claim 9, claim 18 should be patentable over the prior art of record.

Petition for Extension

Applicant respectfully requests a three month extension of time for responding to the Office Action. Please charge the fee of \$950 for the extension of time to Deposit Account No. 10-1250.

In light of the foregoing, the application is now believed to be in proper form for allowance of all claims and notice to that effect is earnestly solicited. Please charge any deficiency or credit any overpayment to Deposit Account No. 10-1250.

Respectfully submitted,
JORDAN AND HAMBURG LLP
